CZ Pokud je v dokumentaci definován spoj ze šroubu a matice o různých pevnostech, vždy utahujte na moment komponenty s nižší pevností.
 D Wenn in der Dokumentation eine Verbindung von Schraube und Mutter mit verschiedenen Festigkeiten definiert ist, wird immer mit dem Moment des Bauteils mit der geringeren Festigkeit angezogen.
 F Si les documents définissent un assemblage par boulon de diverses résistances, serrez toujours au moment de la composante avec résistance inférieure.
 GB If there is a joint with a screw and a nut at different strengths in the documentation, always tighten to the torque of the component with lower strength.
 RU Если в документации установлено соединение из болта и гайки различной прочности, всегда зажимайте с моментом для компонента с меньшей прочностью.
 PL Jeśli w dokumentacji zdefiniowane jest połączenie ze śrubą i nakrętką o różnych wytrzymałościach, zawsze należy dokręcać zachowując moment dokręcania komponentu z niższą wytrzymałością.
