Relax. We have it.

HERITAGE CATALOGUE

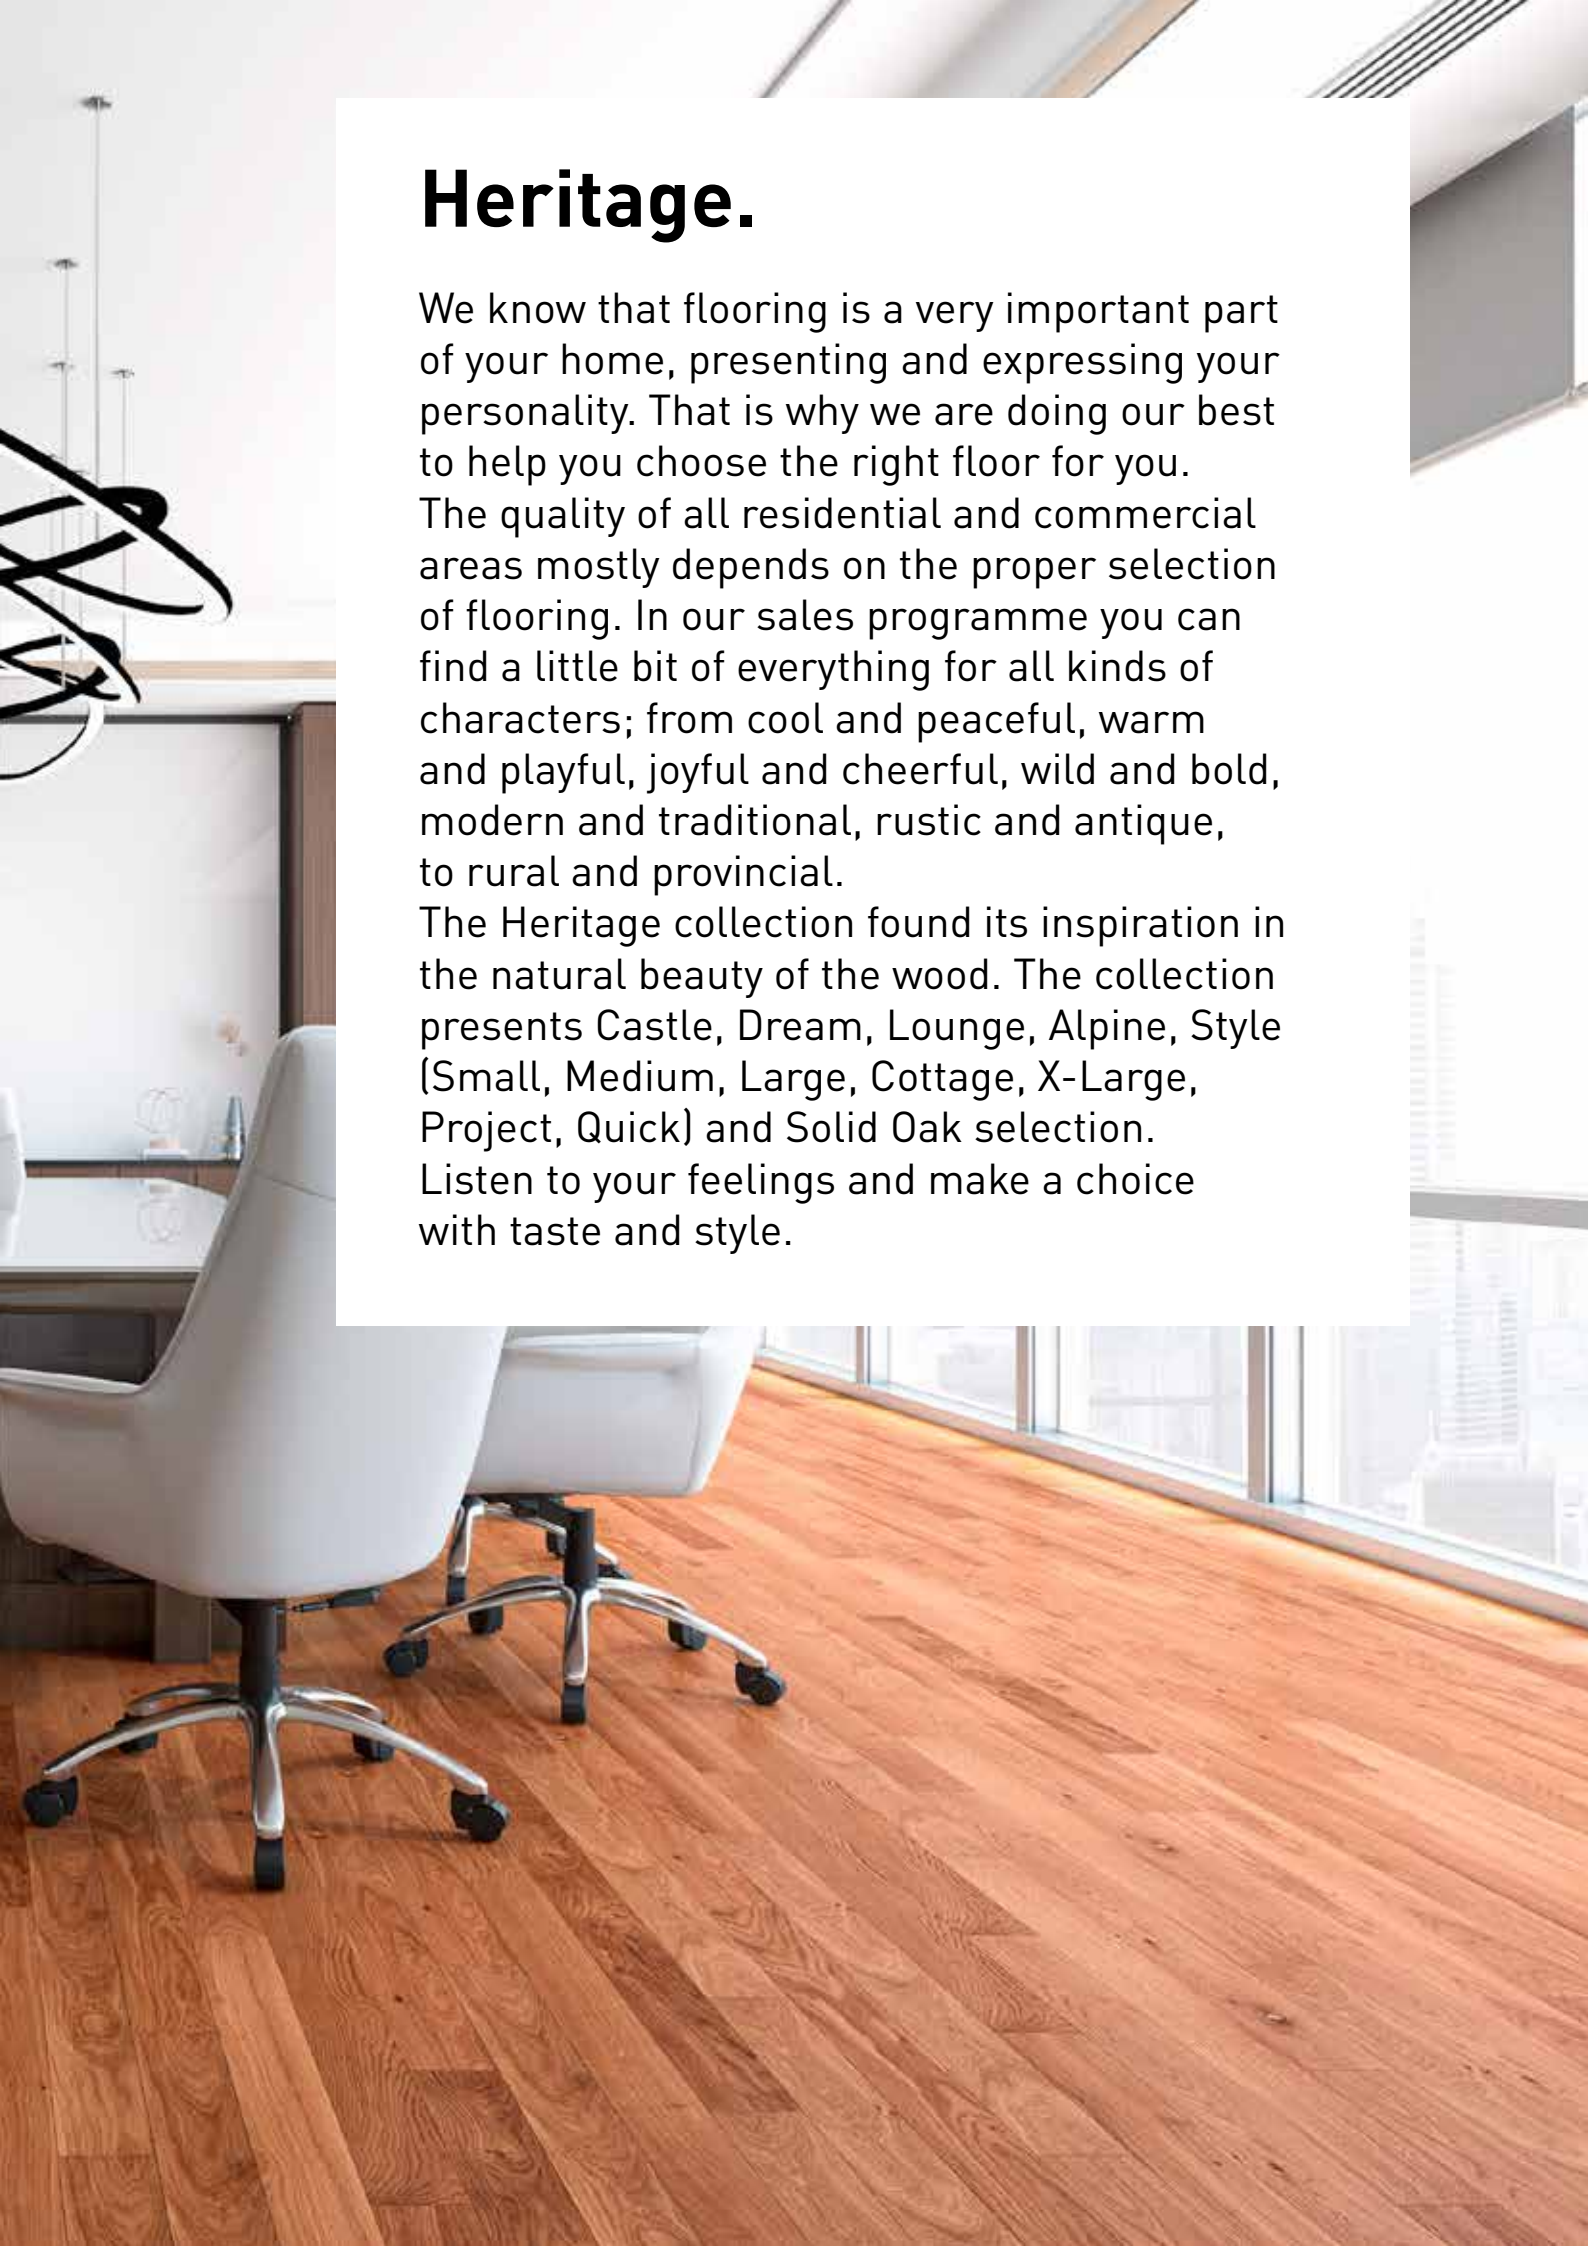

Heritage.

We know that flooring is a very important part of your home, presenting and expressing your personality. That is why we are doing our best to help you choose the right floor for you.

The quality of all residential and commercial areas mostly depends on the proper selection of flooring. In our sales programme you can find a little bit of everything for all kinds of characters; from cool and peaceful, warm and playful, joyful and cheerful, wild and bold, modern and traditional, rustic and antique, to rural and provincial.

The Heritage collection found its inspiration in the natural beauty of the wood. The collection presents Castle, Dream, Lounge, Alpine, Style (Small, Medium, Large, Cottage, X-Large, Project, Quick) and Solid Oak selection.

Listen to your feelings and make a choice with taste and style.

LOUVRE

CASTLE

15/4 x 260 x 2200 mm

The four parquet flooring designs of the Castle collection give a new dimension to planked farmhouse floors. This rustic brushed parquet flooring is the ideal choice for all active, creative and relaxed individuals. The three-layer parquet flooring of the Castle collection allows for an unstressed and creative living, since the varnished or oiled surface ensures optimal floor protection. The

boards measuring 260 mm in width and 2200 mm in length optically enlarge the space, creating an appearance of infinity and distance and a feeling of airiness and freedom. The Castle collection is blends well with a rustic ambiance, and it brings warmth into a modern, minimalist space. The Windsor, Louvre, Burgundy and Avignon oak parquet flooring offer a sense of living fit for a king.

DREAM

14/3 x 190 x 1900 mm

For all those desiring a floor with character. The home is a space which should bear our special stamp and reflect our character. Each minute detail invested into our home expresses our personality, wishes and needs. To what degree does flooring, the basis on which everything else rests, effect the creative energy of a space? The answer is undoubtedly clear – greatly! The Dream Collection found its inspiration in the natural beauty of 20 enticing islands throughout the world, the collection of which comprises 20 different types of oak parquet.

*14/3 x 122 x 610 mm
**14/3 x 120 x 600 mm

Alpine Collection unites the classic and the modern. The classic is represented in the upper layer, made of oak, with a high quality lacquer finish in various shades. The modern aspect of the collection is hidden in the composition of boards. A three layer composition enables dimensional stability of the parquet flooring and its durability.

OAK NATURE LACQUERED

STYLE - SMALL

10/3 x 70 x 490 mm

Amongst all parquets, 2-layer prefinished parquet is the most suitable for installation over sub-floor heating systems. Two-layer prefinished parquet is the general name for boards of smaller dimensions, with tongue and groove joints on all four sides. Boards are composed of two layers. The hardwood covering layer ranges from 2.7 - 4 mm in thickness and has already been sanded and lacquered or oiled 6-7 times. This parquet has to be fully glued to the surface, so it is recommended that the installation be done by a professional installer.

OAK STANDARD BRUSHED

STYLE - MEDIUM

11/4 x 90 x 900 mm
*10/3,7 x 90 x 610 mm

Two-layer Style-Medium parquet flooring with a thickness of 10-11 mm are available with a width of 90 mm and two lengths: 610 or 900 mm. The thickness of the upper layer is 3.7-4 mm. The dimensions of the boards and the structure of the two-layer parquet flooring enable a high stability of the flooring, for this reason the Style collection is excellent for the installation of underfloor heating. The appearance

of the parquet flooring, in addition to the type of wood, to a greater extent also depends on the surface treatment and protection by oiling and varnishing. Moreover, the Style-Medium parquet flooring may be installed using the classic brick method, the fish bone or the chevron pattern, and various combinations of surface treatments enable a varied selection of decors which satisfy every taste.

STYLE - LARGE

10/4 x 120 x 1000/1400 mm

The Style-Large collection opens up completely new possibilities for two-layer parquet flooring. The dimensions of the boards, measuring 120 mm in width and 1000-1400 mm in length, bring a sense of homeliness and at the same time elegance into the room. The parquet flooring of the Large collection are the ideal choice for installation into open multi-purpose living spaces

with underfloor heating. The characteristics of the Style-Large collection of parquet flooring, such as high thermal conductivity, dimensional stability and a magnificent and varied appearance, create a recipe that technically as well as aesthetically pleases even the most demanding tastes.

OAK LIFE LACQUERED

STYLE - COTTAGE

10/2,7 x 150 x 1000/1400 mm

The character of the Style-Cottage two-layer parquet flooring is already hinted at by its name. The Style-Cottage parquet flooring tells a beautiful story full of homeliness and warmth. The practical technical properties of two-layer parquet flooring, such as stability and durability, are excellently complemented by the dimensions of the boards, measuring 150 mm in width

and 1000-1400 mm in length. Regardless of the type of surface treatment, oiled as well as varnished versions of the Style-Cottage parquet flooring create a festive atmosphere every day.

OAK LIGHT LACQUERED

STYLE - X-LARGE

10/3 x 148 x 1900 mm

The boards of the Style-X-Large collection measure 1900 mm in length. These are the longest boards among two-layer parquet flooring boards, which with their width of 148 mm create an attractive appearance of planked farmhouse floor. This flooring fits well into a classic as well as rustic environment, and last but not least it offers a nice contrast to the modern, minimalist style. Due to the two-

layer composition with a width of 10 mm, the Style-X-Large parquet flooring has excellent heat conductivity properties and stability, and is therefore suitable for the installation of underfloor heating. The thickness of the upper layer is 3 mm, and various surface treatments and protection by oiling or varnishing the surface give the Style-X-Large parquet flooring its characteristic appearance.

OAK CD BRUSHED

STYLE - PROJECT

10 x 86 x 602 mm

The Project collection consists of the parquet flooring of smaller length and width. The top layer is an oak plank 2,5 mm thick and gives the parquet a natural look of oak timber. The surface of all decours is brushed in order to increase hardness and resistance. Bottom layer ensures additional resistance, as it is made of a HDF board. The installation of the wooden strips can be classic, but they can as well be arranged in a herringbone pattern or simply checkered. The stripped edge can intensify the particular installation method.

DGPHRA084

STYLE - QUICK

10 x 125 x 1200 mm

The Quick Collection with its click system is the key to fast and easy floor laying. The parquet boards consist of two key layers. The top layer is either oak, the middle one is a high density fiberboard (HDF). The middle layer is of considerable hardness, making the Quick Collection parquet flooring highly resistant to impact and preventing imprints into the surface.

SOLID - OAK

18 x 150 x RD mm
*18 x 90 x RD mm

Solid parquet has all the advantages of wooden flooring. Wood is one of the oldest and most appreciated materials in flooring. It has a distinctive, unique natural structure and colour. Solid parquet is an investment for several generations. Its thickness allows it to be renewed (sanded) several times. Boards vary in dimensions. Lengths range from 400 mm to 1500 mm, widths from 90 mm to 150 mm and thicknesses from 15 mm to 18 mm. Solid parquet has to be fully glued to the surface.
