ABOUT THE COMPANY

ROSTEX VYŠKOV S.R.O., A CZECH MANUFACTURING COMPANY WITH A MORE THAN 90-YEAR TRADITION

In the time of its existence the ROSTEX brand has achieved a significant position on the domestic market, mostly thanks to its original technical solutions, its timeless designs, and its selection of the highest quality materials during production.

The philosophy of ROSTEX VYŠKOV s.r.o. is to offer the customer a product with high utility value.

Our main competitive advantages are:

- Tradition and experience
- In-house development and construction
- Top product quality
- Wide assortment of constructions and finishes
- Extensive network of sales locations in the Czech and Slovak Republic
- Manufacturing capabilities – option for customs production according to specifications

GUARANTEE

Selected finishes with a prolonged guarantee (5 years Cr-stainless steel satin and 10 years stainless steel)

CYLINDER PROTECTOR

- tested according to EN 1906
- security grades RC3 or RC4
- with drilling resistant ring
- firmly welded to the lockplate
- made from stainless steel

SYMBOLS

BB - key hole

PZ - cylinder hole

WC - toilet knob

 - resistant class 3

 - resistant class 4

DIN EN 179

escape route

- design with plastic fixing inserts

- design with fixing metal attachments

- designed for high traffic doors

- strenghten construction for greater loading

- designed for fire proof doors

- universal handle, for both door furniture and security fittings

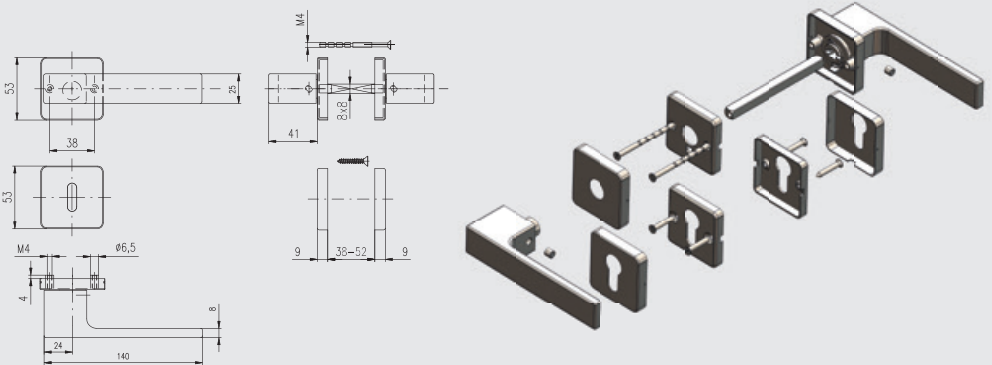

- reversible mechanism (reversible spring)

DOOR HANDLES

- ECONOMY LINE SQUARE - DESIGN/H

- Material stainless steel
- Concealed steel under roses
- Classification acc. to EN 1906
- Stainless steel fasteners
- Door thickness 38-52 mm (WC version – door thickness 38-43 mm)
- Included reversible spring

PULL HANDLES

PULL HANDLE ALFA - stainless steel satin, black

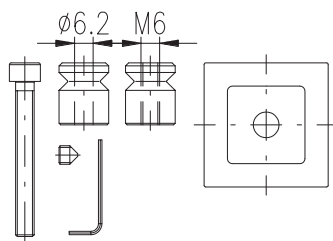

Door pull is designed to be mounted on the door using screws M6. Suitable for outdoor use. Assembly material depends on mounting options below and it is not included. Available in stainless steel satin or in RAL variant acc. the sample book (page 47).

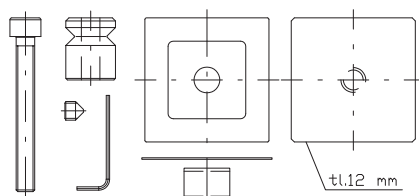

Single mounting
under 50 mm - 5088000000
over 50 mm - 5088010000

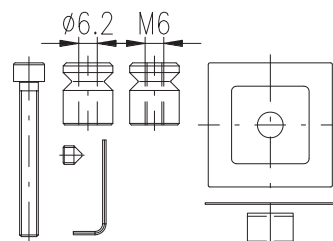

Back to back mounting
5588020000

Single mounting – glass door
5588030000

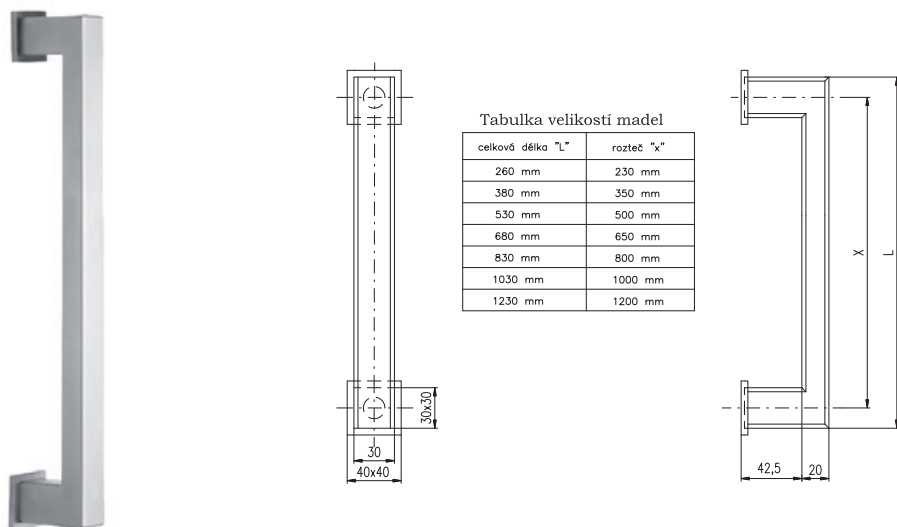

Back to back mounting – glass door
5588040000

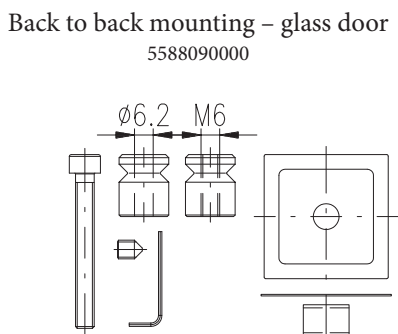

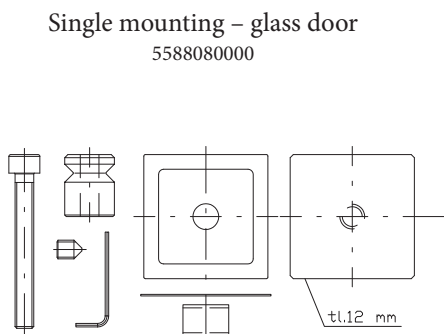

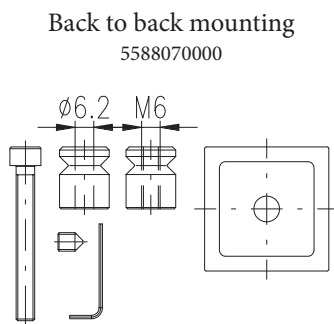

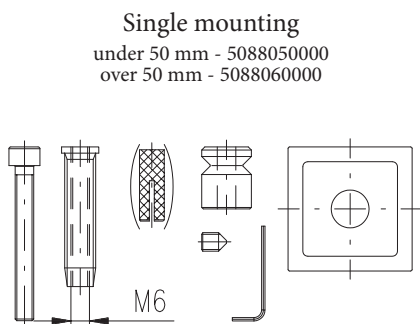

Available in stainless steel satin or in RAL variant acc. the sample book (page 47)

PULL HANDLE BETA - stainless steel satin

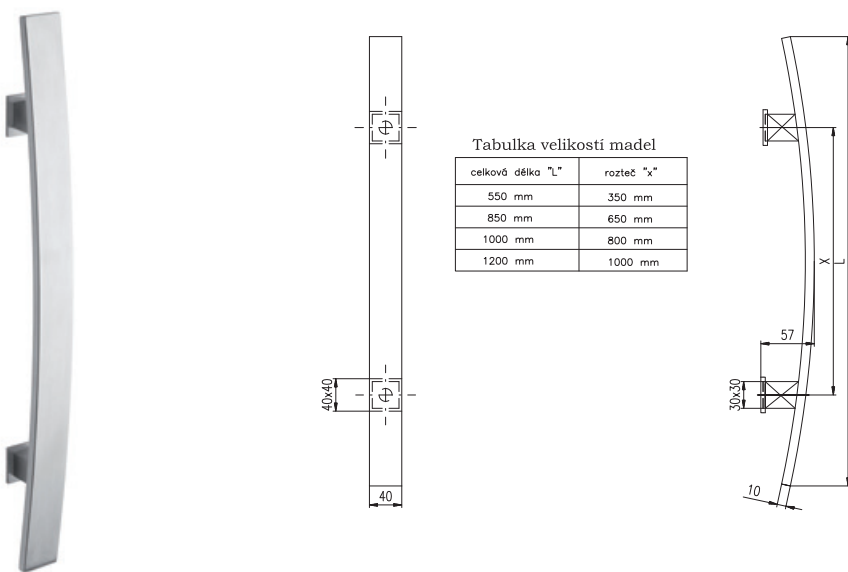

Door pull is designed to be mounted on the door using screws M6. Suitable for outdoor use. Assembly material depends on mounting options below nad it is not included. Available in stainless steel satin or in RAL variant acc. the sample book (page 47).

Available in stainless steel satin or in RAL variant acc. the sample book (page 47)

PANIC FITTING

Compatible with wide range of panic mortise locks. Possibility of using on escape route acc. EN179

850 BORA/8 included split spindle – with reversible mechanism

handle-handle

DIN EN 179

Variant: left, right

Pitch: 72 mm, 92 mm

Door thickness: 40-75 mm

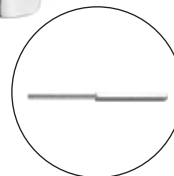

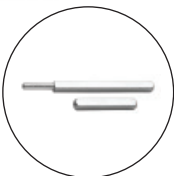

Included split spindle 8x8 and spindle reduction 9x9 mm (reduction 10x10 mm on request), two reversible mechanism if handle-handle option

Stainless steel satin

850 BORA/5 included split spindle

handle-handle

handle-knob

DIN EN 179

Variant: left, right

Pitch: 72 mm, 92 mm

Door thickness: 55-75 mm

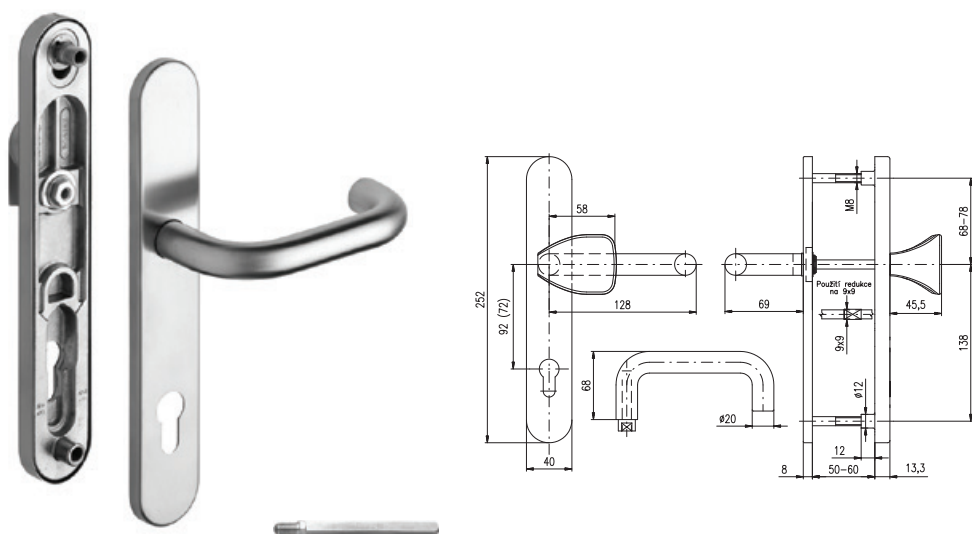

Included split spindle 8x8 (spindle reduction 9x9 and 10x10 mm on request), without reversible mechanism

Handle-handle, handle-knob

Stainless steel satin

SECURITY FITTING RX PANIK

BK RX802-40 PANIK stainless steel satin

Pitch: 72,90, 92 mm

Door thickness: 50-60 mm

Compatible with wide range of panic mortise locks. Suitable for escape routes acc. to EN179. With square spindle 8x8 mm, included spindle reduction 9x9mm (10x10 on request). Lever handle-knob one spring, handle-handle two springs. Set is working only on the doors opening outside.

Note: State the orientation of lever handle L or R. Displayed set is pointing to the right.

BK RX807-40 PANIK stainless steel satin

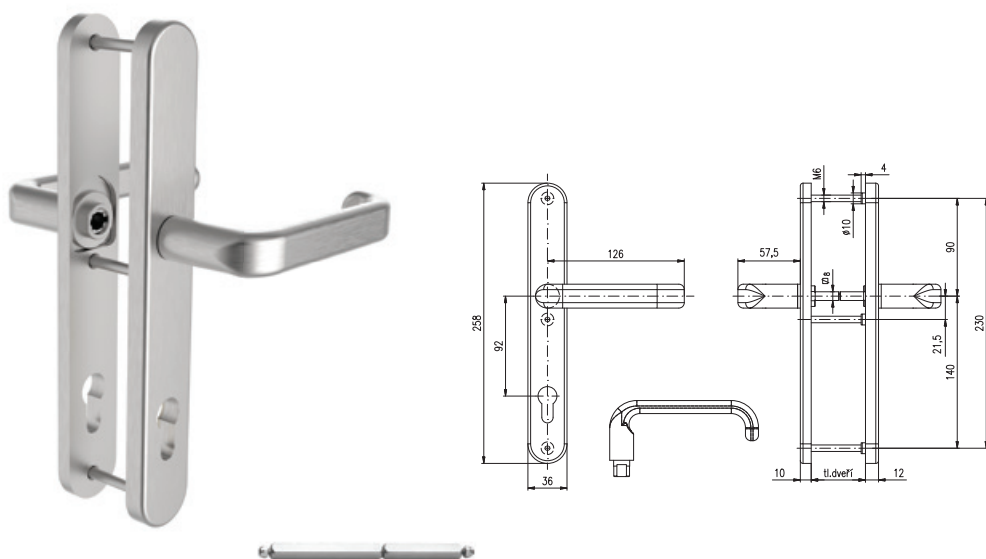

Handle-handle two springs
Square spindle 8x8 mm

SECURITY FITTING GRANDE – PANIK

BK 807 GRANDE - PANIK stainless steel satin

Pitch: 92 mm

Door thickness: 50-60 mm

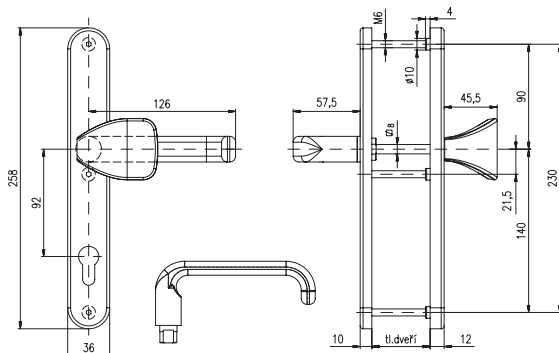

Compatible with wide range of mortise locks. Suitable for escape routes acc to EN 179. High durability, tested to 200 000 cycles. Each handle is firmly attached to the plate. With square spindle 8x8 mm, included spindle reduction 9x9 mm (10x10 mm on request). Spring loaded handles on both sides.

Variant: right, left

SECURITY FITTING GRANDE

BK 802 GRANDE stainless steel satin

Pitch: 72, 90 mm

Door thickness: 40-50 mm

Compatible with wide range of mortise locks. High durability, tested to 200 000 cycles. Reversible spring for handle (variant handle-handle: spring loaded handles on both sides).

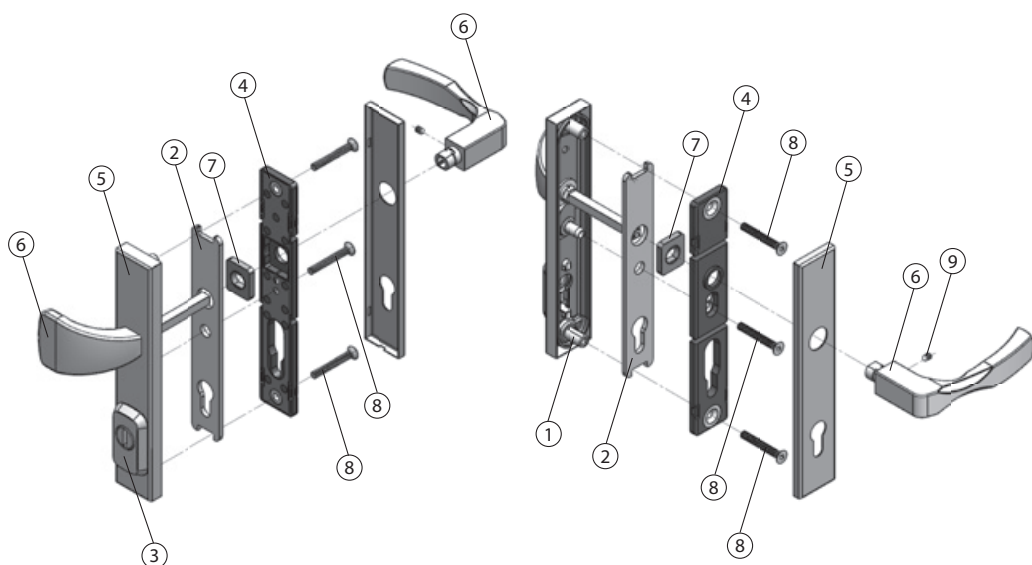

Variant: right, left

BK 807 GRANDE stainless steel satin

IMPORTANT DESIGN PARAMETERS RN

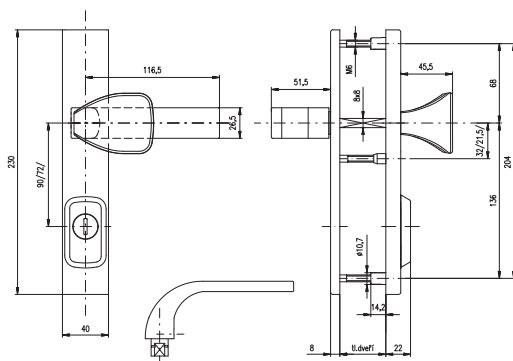

1. **Security back plate** — steel plate with three bolts
2. **Covering plate** — additional steel plate hardened 52 HRC
3. **Cylinder protector** — made from stainless steel casting with drilling resistant ring, hardened up to min. 50 HRC
4. **Inner plate with steel body**
5. **Front and outer shields made from stainless steel with resistant surface treatment**
6. **Stainless steel lever handle and knob**
7. **Reversible mechanism**
8. **Connecting through screws M6** class 8.8 provide a tight and resistant connection of the backplates
9. **Grub screw for lever handle fixing**

Security fittings ROSTEX conforms to the requirements of EN 1906 standard for a usage in burglary resistant doors. The design of the security fittings ROSTEX meets the test parameters prescribed within the standard and fulfill security demands of the resistant class 3

SECURITY FITTINGS RN

BK RN1 FONDI stainless steel satin

Pitch: 72, 90, 92 mm

Door thickness: 38-50 mm

For thicker door, see the fastening material on page 45. Cylinder must not protrude above the door surface more than 15,5 mm.

IMPORTANT DESIGN PARAMETERS RX

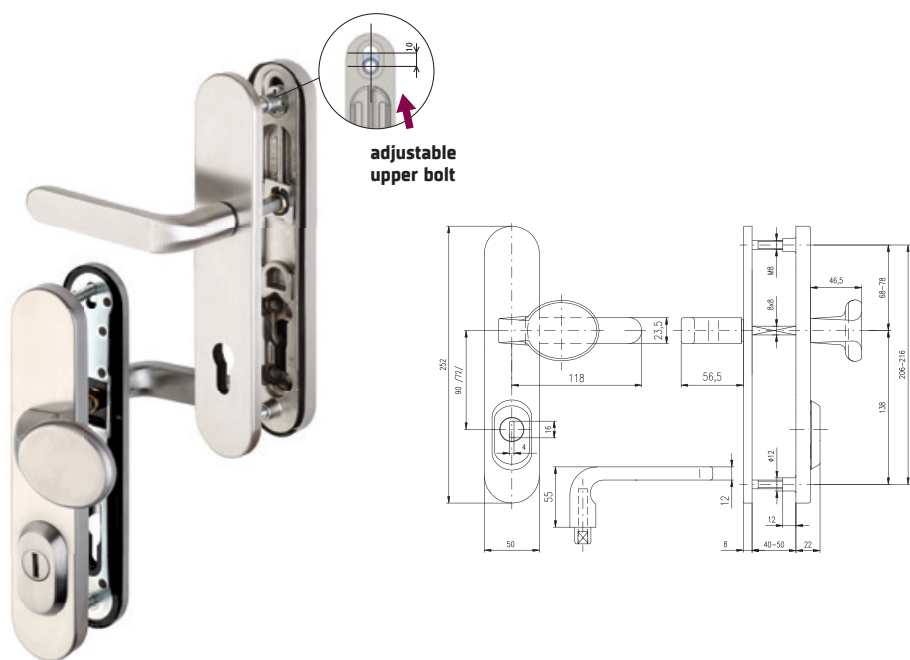

ADJUSTABLE UPPER BOLT ENABLES SHIFTING ITS POSITION FROM THE RANGE 68-78 MM

1. **Security backplate of the front shield with adjustable bolt** – massive steel casting
2. **Cylinder protector** made from stainless steel casting with drilling resistant ring, hardened up to min. 50 HRC
3. **Inner plate with steel body**
4. **Front and outer shields made from stainless steel with resistant surface treatment**
5. **Handles and knobs are made either from stainless steel or zinc alloy galvanic treatment, resistant to external environment**
6. **Reversible mechanism**
7. **High strenght bolts M8 class 8.8.**, provide a tight and resistant connection of the backplates
8. **Shaped washer of the upper bolt**
9. **Grub screw for lever handle fixing**

Security fittings ROSTEX conforms to the requirements of EN 1906 standard for a usage in burglary resistant doors. The design of the security fittings ROSTEX meet the test parameters prescribed within the standard and fulfill the strict security demands of resistant class 3 or 4
