1946, THE STORY OF A JOINER FROM THE POST-WAR ERA...

The history of Cornilleau is primarily a family story. In 1946, Emile Cornilleau, a joiner by trade, left Paris to offer his family a better quality of life. He decided to settle in Oise, northern France, where there was a significant demand for post-war reconstruction. He opened a joinery workshop in an old agricultural building in Bonneuil-les-Eaux: this is where the story began...

1969, « WE NEED 300 TABLES FOR CHRISTMAS! »

In 1969, the consumer society and the leisure market were booming. Armed with its success, the BHV Paris is expanding its offer and indirectly puts forward a plan to Cornilleau: making ping-pong tables. Fresh ambition, new expertise: the family company embarks on the adventure, making 3 prototype tables. Won over, the BHV Paris orders 300 for Christmas. This news comes in May!

It's a challenge and a half for Emile: the small-scale joinery must evolve into an industry capable of producing large volumes in a short space of time. His son Pierre convinces him to go for it. Emile Cornilleau invests all his savings in special tooling and takes up the challenge. This decision punctuates Cornilleau's history: it is the founding event for the future ping-pong brand.

TABLE TENNIS
TABLE
MANUFACTURER
50 YEARS
SINCE 1969

1988, PING-PONG HEADS OUTDOORS

In the eighties, it brought an air of freedom across France... Families have a real infatuation for outdoor sports and healthy, family fun. However, outdoor ping-pong continues to remain on the sidelines: outdoor tables are simply too expensive. Pierre Cornilleau decides to make them accessible to the general public.

The technical team looks into the matter, revolutionising ping-pong by using a material that had been reserved for the building world: solid laminate. A new range of outdoor tables is launched. From innovation to innovation, the Cornilleau tables are becoming increasingly high performance and hardwearing whatever the climatic conditions. It is a turning point in the history of ping-pong!

FROM 2000, INNOVATION EXTENDS TO THE TABLES AND BEYOND!

The year 2000 and onwards were a pivotal period for the brand: Pierre Cornilleau took his well-deserved retirement and passed the reins to Michel Zany, who decided it was time to diversify the product range. A range of leisure rackets, like that of Jean-Philippe Gatien, were quickly put on the market. Five years later, Cornilleau, in collaboration with Michelin, became pioneers by developing a range of outdoor

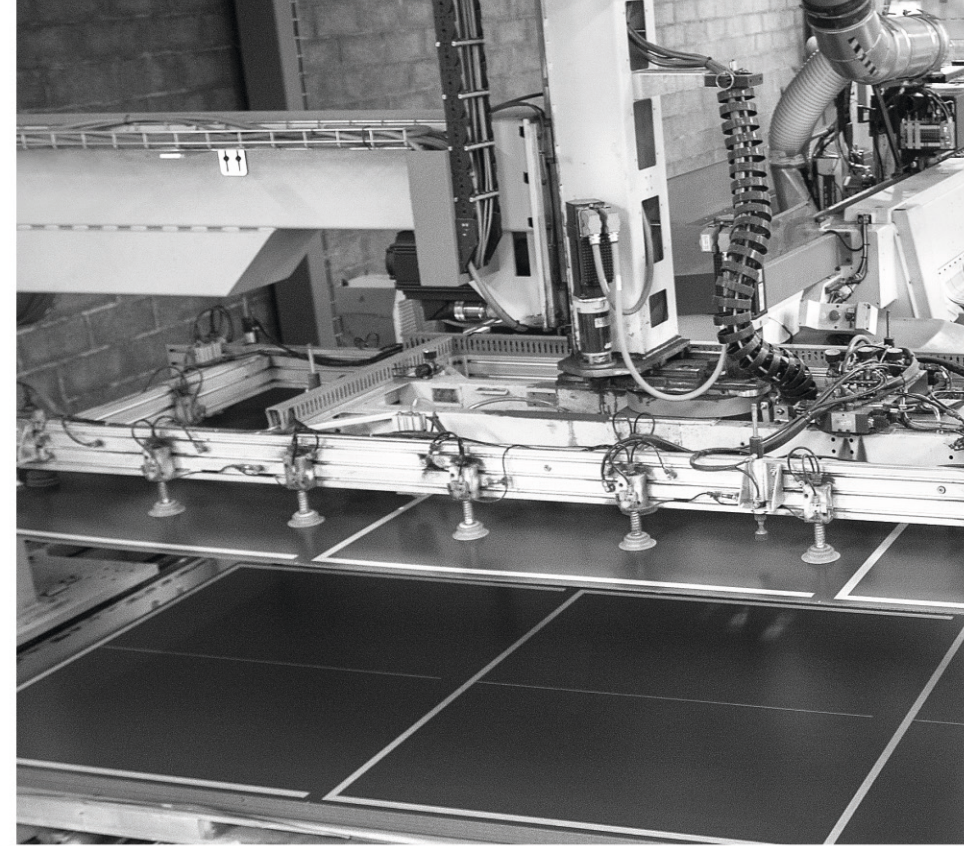

rackets made of polymer and elastomer composite materials. The then Technical Director, Stéphane Mithieux, is the great craftsman behind this TACTEO project. With this, the company further bolsters its position as a ping-pong specialist by offering an even more comprehensive and innovative range to the general public.

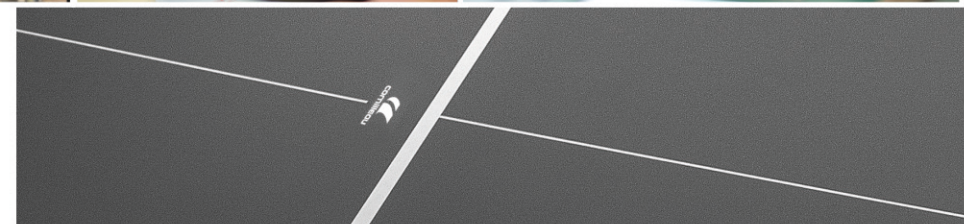

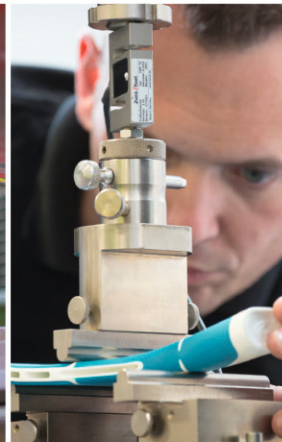

MASTERED KNOW-HOW

Cornilleau is developing in the global market place thanks to high quality, innovative products with a distinctive design. Through the development of a brand new generation of wheels, we have for example succeeded in improving the mobility and manoeuvrability of our tables, without ever making the slightest compromise in terms of safety, stability and sturdiness. All the Cornilleau tables are developed and manufactured in France, within the very hub of the business, in Bonneuil-les-Eaux in the Oise department (Picardy), the Cornilleau family's native village. The research and development laboratory associated with the marketing unit are here at the heart of the factory: 'Made in France' grey matter intended to devise, design and manufacture all the products, for today and tomorrow.

6

THE CONFIDENT CHOICE

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 years for outdoor tables. This 10-year warranty applies to all the various components, with the exception being the wear parts (wheels, net and net posts). All our tables adhere to the European safety standard EN 14468. Nevertheless, in order to ensure the highest level of safety, Cornilleau has positioned itself a long way above this standard.

Cornilleau strives to offer the highest quality products. However, some of our products undergo wear and tear over time. That's why we feel it's important to provide you with the best possible after-sales service. Our after-sales services goes beyond simply exchanging your product in event of a problem. It also covers managing your delivery, table assembly and providing telephone or computer support for online customers.

NEW

BUILT-IN DURABILITY

Cornilleau guarantees its OUTDOOR tables for 10 years and its INDOOR tables for 3 years. To make sure you continue enjoying your table long after your guarantee period, we promise that our spare parts will be available to you for 20 years. Cornilleau is synonymous with built-in durability!

NEW

ACTIVATE YOUR GUARANTEE

Congratulations, you have just bought a Cornilleau table. Now's the right time to take advantage of Cornilleau's services. To activate your guarantee (3 years on Indoor tables and 10 years on outdoor tables), we invite you to create your account and save your table information on the following page:

www.cornilleau.com/en/activate-guarantee/

Once your guarantee is activated, you will find all the information about your table as well as your order details. You will also ensure the availability of spare parts for your table over a 20-year period.

ECO- RESPONSIBILITY, AND NOW ECO-DESIGN...

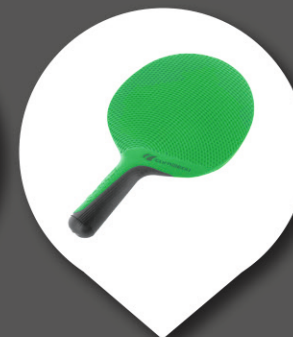

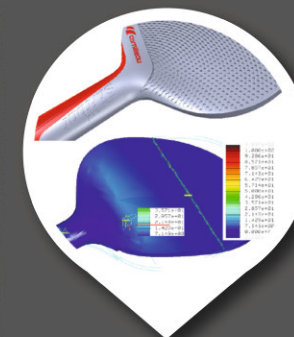

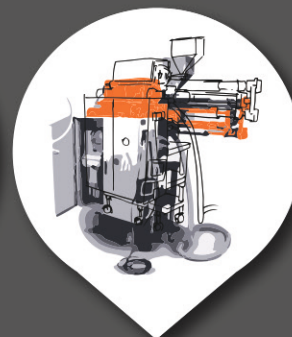

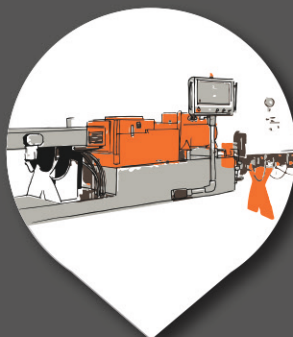

At the end of the 1980's, Cornilleau began developing products that were almost exclusively "ultra-durable" and "made in France". Naturally, the company now offers entirely eco-responsible products. A new phase began in 2017 with the launching of the market's first outdoor «eco-designed» racket, manufactured using recycled textile fibres in collaboration with the Brittany-based company Armor-Lux. The SOFTBAT racket is the concrete result of R&D work carried out over three years by a group of French industrialists (Armor-Lux, Plastigray and Cornilleau). The companies came together for an innovative project, "Eco-Charge". The racket's entire production chain is French: mould maker, compounder (material manufacturer), assembler, packaging manufacturer and recycled textile fibres supplier. As we wait for the release of the first 100% eco-designed table, our company is steadfast in our conscious, responsible actions in regards to all our processes (reducing energy consumption, drastic reduction in our use of toxic products, promoting a circular economy, etc.).

PING TAKES IN THE STREET

PING! ENGLAND

Throughout the summer 2018, the 8th edition of PING! ENGLAND gathered together nearly 500,000 participants, who for 2 months once again had the opportunity to play on over 600 Cornilleau tables spread right across Britain, including around a hundred in the capital itself. Ping is so British!

PING TOUR

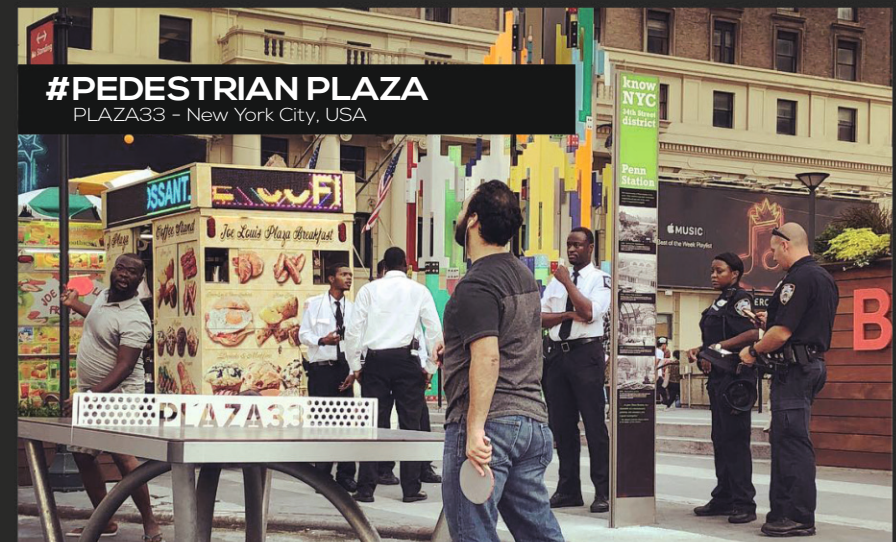

The Ping Tour is a truly unique promotional tour, orchestrated by the French Table Tennis Federation and Cornilleau. The 2018 edition, which ran from 16 June to 18 September, encompassed France's largest cities so as to enable the greatest number of people to experience all the Ping universes. Roll on the 2019 edition!

ULTRADURABLE
OUTDOOR
TABLES

CROSSOVER OVERSIZE DOUBLE WHEELS

CLEARANCE

The diameter (200mm) of our new Oversize wheels, combined with their ultra-robust design, offers unique clearance (kerbstones, terraces, pavements, etc.).

FLEXIBILITY

The bracket links the two wheels at the very spot where there are the greatest mechanical stresses. As such, our engineers have taken very special care with the design of this part, in order to make the table incredibly easy to manoeuvre in any situation.

MANOEUVRABILITY

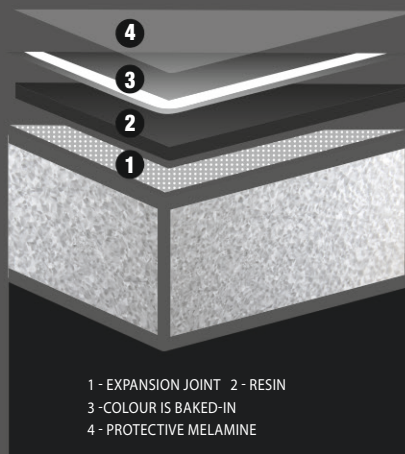

The greater the number of wheels the greater the load-bearing capacity. As such, the use of wide, twin wheels (32mm), significantly improves the manoeuvrability of the table, especially on varied (lawn, gravel, wooden terrace, etc.) and/or uneven terrains.

OUTDOOR
ULTRADURABLE

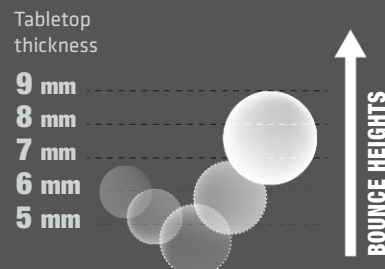

HIGH QUALITY MATERIALS

ADAPTED TO MEET YOUR NEEDS.

Cornilleau has been a pioneer in «outdoor» tables for the garden. They are designed with anti-corrosion materials ensuring resistance to bad weather.

ULTRADURABLE

AN EXTRAORDINARY STANDARD OF SAFETY

INTEGRATED DOUBLE SECURITY

Using a central release handle, the table can be opened and closed with extreme ease. The DSI system has 16 locking points. The table is fully locked in playing and storage positions. What's more, because of its unique system, if a child opens the table and releases the handle, the panel automatically locks at 65°, thereby avoiding any risk of accident. Finally, if the top is not fully locked in the playing position, a second locking level stops the top from flipping over.

COMPACT TECHNOLOGY

EASY TO STORE

The patented « Compact Technology » system ensures optimum safety, easy movement and minimizes storage space requirements.

75 cm

155 cm

THE ADVANTAGES OF OUR LEISURE TABLES

OVERSIZE DOUBLE WHEELS

The diameter (200mm) of our new Oversize twin wheels, combined with their ultra-robust design, offer unique clearance, manoeuvrability and flexibility.

RETRAC- TABLE NET

The net swivels automatically between the two panels when you close the table, further optimizing storage space and providing better safety when stored.

EASY TRACK

This handle enables you to easily lift the table over any obstacles (step, edge of the terrace, doorway).

ADJUS- TABLE FEET

Wide leg pads enable you to adjust the height of the feet and ensure tabletops are perfectly level where the ground is uneven.

500M CROSSOVER

A titan of a table for full-on rallies: with the 500M Crossover, you'll be striving for excellence. This table has the power to make your neighbours jealous, as the care that goes into each and every detail is palpable. With its sturdy, aesthetic outline, it has been designed for intensive practice. A look, a challenge, the confrontations are unavoidably merciless! A duel in the sunshine begins in what is a truly unique playing experience. Ultimately, friendships are built and further strengthened once the game is over.

400m CROSSOVER

Made in France

We're a family of sportsmen and women: a whole string of rallies ensues and everyone lets fly. The 400M Crossover takes it like a pro and certainly doesn't skimp on the technical front: solid brakes, twin wheels, perfect return of spin and excellent rebound. With a matt surface that is fiendishly good at reducing the sun's glare, you will no longer be dazzled and the shots will be yours for the taking. A fully equipped table accustomed to all the weather throws at it, for some truly uncompromising games.

300S CROSSOVER

The 300S Crossover cuts quite a dash. Its curved feet convey great stability; its large wheels give it the look of an adventurer, whilst its ample sides are a very practical place to store the colourful rackets. An added bonus is the simplified opening and closing of the folding net, which enables considerable space saving when the table is closed. Equally it enjoys all the benefits of a bigger table enabling some top-flight games at a reasonable budget.

AN OUTDOOR TABLE EVEN ON THE INSIDE

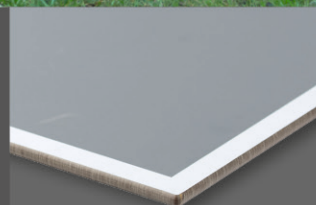

SCRATCHED
TOP

INDOOR

BLISTERED
TOP

SHOCKPROOF

OUTDOOR

The Indoor tables are equipped with a painted chipboard tabletop. The main benefit of this playing surface is the great value for money compared with the rebound quality. That said, this tabletop definitely is not for use outdoors as the material is not designed to cope with bad weather. Rain and, by extension, moisture are its worst enemies (risk of distortion and blistering). The sun's rays are no exception, as they too very quickly damage the surface layer (risk of discolouration). The other major disadvantage of this so-called indoor tabletop is its fragility in the event of repeated impacting and/or friction (impact from a beginner's racket for example). You've got it, we strongly recommend that you opt for so-called Outdoor tables, even when they are exclusively for indoor use (garage, cellar, etc.). Just as high performance for play, Cornilleau's Outdoor tabletops have the advantage that they're weather and shock resistant so they're ultra-durable. That's why we guarantee our Outdoor tables for 10 years (ref. page 5) compared with 3 years for the Indoor versions. So don't wait a second longer, whatever your style of Ping, opt for our Outdoor tables. You won't regret it!

50

The range of ITTF approved Competition tables (850 Wood, 740, 640, 610, 540) is a perfect combination of very high performance and elegance. Cornilleau is the official supplier for the French Table Tennis Federation.

COMPETITION INDOOR TABLES

51

 **cornilleau**

COMPETITION INDOOR TABLES

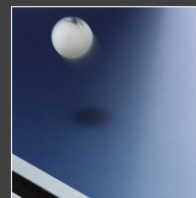

Cornilleau has developed, designed and produced competition level tables for more than 30 years. All our tables comply with European safety standards EN 14468. To ensure the highest safety levels, Cornilleau product compliance goes much higher than this standard and guarantees the tables against manufacturing defects for 3 years.

COMPACT[®]
TECHNOLOGY

DSI[®]

SKIL[®]
TOP

Cornilleau is the first manufacturer to develop this system for competition tables. The patented COMPACT TECHNOLOGY system undoubtedly represents the best offer on the market in terms of storage, safety and ease of use.

Thanks to a central unlocking handle, the table can be opened and closed extremely easily. The DSI system has 16 locking points. The table is fully locked in the playing position and folding position. The safest table on the market.

SKILTOP coating, specific to our competition tables, was developed with the best possible attention to detail. It ensures an extremely reliable and regular bounce, as well as optimum adherence to the playing surface for perfect return of play.

«P-BALL READY» SKILTOP

- Spin-sensitive finish specifically designed for plastic balls.
- Non-reflecting, matt, water-based and environment-friendly paint.
- Grey color (available only with 850 Wood ITTF and 740 ITTF) : for a better contrast with the ball.

WHEELCHAIR PLAY

The leg assembly has been designed to allow for the locking of a chair under the table for wheelchair play. ITTF W standard.

ROBUST MATERIALS

The materials selected for our competition tables are particularly robust (example: sides and feet entirely made of steel).

FIXED POSTS

ITTF posts fixed permanently to the table will save you time on each installation. The height of the net can be adjusted without affecting tension.

MINIMUM STORAGE SPACE

The leg assembly has been designed to stack tables during storage, providing minimum storage space. Optimal storage size: 1 table = 65 cm + 45 cm for each added table.

ALL THE NOBILITY AND REFINEMENT OF WOOD

The 850 Wood is a genuine tribute to this noble material, which, above any aesthetic value, provides the table with unequalled sound and playing qualities. Contemporary by definition, this table rewrites the codes with its grey indoor top and its retractable net posts. These two ITTF approved innovations are completely new in the world of competition. The 850 Wood, which naturally combines performance with elegance will become a standard for major international competitions as well as a perfect match for your interior design.

A pioneer of outdoor rackets back in 2005 with Tacteo, Cornilleau has been consistently improving its technological command. The result: products that are always ultra-durable and high performance (Nexeo and Nexeo Graphite).

OUTDOOR & INDOOR RACKETS

PERFORMANCE
OUTDOOR
RACKETS

nexeo
GRAPHITE

The NEXEO GRAPHITE X200, a perfect combination of our expertise in outdoor ping and 'graphite' technologies that have thus far been reserved for the tennis world, is probably the highest performance outdoor racket on the market. It has taken 3 years for this product to come to fruition and the results offer supreme qualities that one might assume would be incompatible: outdoor (weather resistant), incredibly high performance, ultra-durable (shock resistant) and extra light. Don't hesitate for even a second; you too can BOOST YOUR GAME!

CARBON FIBER®

Carbon fiber inside the blade of the Nexeo X90 increases rigidity for even greater speed.

NEXEO X90
Latest generation
composite racket
with carbon

nexeo

Based on their solid experience of outdoor equipment, Cornilleau's engineers have developed a patented 'four-material durable' version. This outdoor racket stands alone in terms of performance.

BOOST
YOUR GAME

NEXEO X70
Latest generation
composite racket

SPEED
Its dynamic sponge ensures fast play.

PRECISION AND SPIN
Its innovative covering ensures perfect return of spin.

SOLIDITY AND DURABILITY
Made of strong composite material (carbon for the X90), Nexeo withstands impact and bad weather.

COMFORT
The Nexeo's elastomer handle, with its ergonomic form, ensures optimal grip.

Tacteo

TECHNICOLOR PING!

LAUNCHED IN 2005, THE TACTEO IS IMPROVING YEAR ON YEAR TO THE RHYTHM OF OUR INNOVATIONS. CAPABLE OF WITHSTANDING ALL KINDS OF BAD WEATHER, THE 100% FRENCH OUTDOOR RACKET BOASTS A NEW, COLORFUL LOOK, WHICH WILL UNITE YOUNG AND OLD IN THE JOYS OF THE GAME WITH FAMILY.

ULTRADURABLE RESISTANT

CORNILLEAU was a pioneer in the development of composite (dual-injection) outdoor ping-pong rackets made of composite with the launch of the TACTEO in 2005. Armed with this expertise, we were keen to take things a step further by teaming up with the ECO-CHARGES eco-design programme initiated by our injector partner and the company ARMOR LUX. After several years' development, CORNILLEAU is launching SOFTBAT, the world's first eco-design racket.

INDOOR
OUTDOOR
RACKETS

BEGINNERS' RACKETS

BABY PING

There are a whole host of great reasons to encourage children to take up Ping. A sociable sport, which several people can play at the same time, it develops psychomotor skills, concentration and a sharp mind. Refereeing is easy and a tool like BABY PING fast-tracks the learning process so you can start playing and having fun.

DVD

"Ping for 4-7 yr olds". The training method used sets tiny tots on the road to success and encourages the first rallies. Plunging into the child's imagination (the domain of circuses, wild animals and children's stories), a fun-filled theme colours the exercises and recreational circuits (only available in French).

AT SCHOOL

The situations highlighted in the DVD correspond with the French education programmes with real progress evident as the child moves from one situation to the next (first to fifth year primary school age), which will enable the child to acquire new skills, whilst encouraging thought and concentration.

AT THE CLUB

The various situations are organised in such a way as to develop both dexterity and motor skills.

AT HOME

The child's imagination is stimulated through situations that they will be able to practice on their own, with a group or in a duel. This encourages their dexterity and speed of execution, as well as developing values familiar to sport such as respect and working towards a goal.

BABY PING KIT

DVD, rackets and balls

The two-tone 'Panda' racket means that the different effects can be explored thanks to the quality of the rubber, whilst the thick, shock-absorbing sponge covering promotes improved control. The edges of the blade are softened and naturally the grip has been modified with a shorter (8cm), slimmer handle (2.2cm). It is also more lightweight at just 110g compared with 150g for an adult beginner's racket.

The balls come in a variety of sizes and materials. Made from sponge, they make the initial rallies easier thanks to a slower speed but a dynamic bounce. The large balls measuring 55mm in diameter facilitate both touch and spin. Finally, the two-tone balls mean the player can actually see the ball's rotation.

73

ERGONOMIC BAT

A round, ergonomic handle suits both children and adults alike and an educational zone for the right positioning of the hand. ideal for intensive use in schools, youth clubs and holiday centres. Supplied in boxes of 10 or 60.

The perfect combination of technological innovation and design. The Tacteo 30 is supplied in boxes of 5 or 80.

The Cornilleau product range for competitors (rubbers, blades, clothing, baggage, accessories) enables even the most demanding players to be assured of a winning combination.

75

TECHNOLOGY TO IMPROVE YOUR GAME

The special formulation and cell structure enable the NEXTENS sponge to interact more efficiently with the pimples below the surface that is in contact with the ball. The GT (GREAT TENSION) evolution in our NEXTENS sponge provides additional strength, as well as transmitting greater rotation onto the ball.

The IN-TENS sponge is an adaptation of our IN-TENS² sponge. It provides incredible control combined with powerful acceleration. It's as if it absorbs the energy in the passive game and releases it into the active game. Unique sensations guaranteed! The IN-TENS² sponge is at the pinnacle of the market's references in terms of the transmission of energy. It fully satisfies the expectations of even the most demanding players by providing enhanced contact with the ball, precision and comfort. It also guarantees maximum enjoyment thanks to the sound emitted with each stroke.

The GRIP EXTEND and GRIP EXTEND PLUS top-sheets enable you to transmit even greater spin in every phase of the game through their increased elasticity and impressive level of grip.

The SPIN-DRIVE 3D technology is the optimisation of 3 performance settings in the top-sheet's pimples: shape, size and density. Each TARGET covering features its own unique combination so as to reach a very specific target: grip + power for TARGET PRO GT, grip + precision for TARGET Ultim, grip + speed for TARGET Force, and grip +

The optimisation of the density and geometry of the pimples is one of the keys to performance with the coverings.

- The FAST combination guarantees rapidity and power.
- The SOUND combination guarantees sensation and decibels.
- The SPEED combination guarantees speed and precision.
- The PULSE combination guarantees explosive acceleration and decibels.
- The SPIN combination guarantees control and rotation.

THE RE-INVENTED TOP-SHEET

EVERY TARGET TOP-SHEET COVERING DEVELOPED BY THE CORNILLEAU AND MICHELIN EXPERTS (SUPERIOR RUBBER) BOASTS A SPECIAL FORMULATION ENABLING IMPROVED ELASTICITY COMBINED WITH A UNIQUE PIMPLE SHAPE.

TARGET PRO GT

TARGET PRO GT IS A RANGE OF RUBBERS 'MADE IN GERMANY' AND THE RESULT OF A RESEARCH AND DEVELOPMENT PROGRAMME INVOLVING CORNILLEAU EXPERTS, MICHELIN ENGINEERS AND THE WORLD'S LARGEST MANUFACTURER OF RUBBERS. THE TOP PRIORITY FOR THIS PROJECT: REACHING THE HIGHEST LEVEL OF PERFORMANCE AND SAFETY IN TOPSPIN AND COUNTER-TOPSPIN STROKES.

77

Target Pro GT-M43 is a fast, comfortable and outstandingly tolerant rubber that achieves formidable efficiency

TARGET PRO GT-S39 OFF +

2,0/MAX - RED/BLACK

Target Pro GT-S39 is a soft, dynamic and very sonorous rubber that results in an incredibly playful rubber.

TARGET PRO GT-H47 OFF+

2,0/MAX - RED/BLACK

Softer than X51, Target Pro GT-H47 impresses with efficiency and reliability.

COMPETITION PLAYER RUBBERS

PILOT FAST

2,0/MAX - RED/BLACK

Pilot Fast is one of the most highly responsive rubbers on the market. With its 40° IN-TENS² sponge associated with its grippiest and most dynamic top-sheet (GRIP EXTEND and FAST technologies), Pilot Fast is a genuine concentration of energy and speed.

PILOT PULSE

2,0/MAX - RED/BLACK

Pilot Pulse offers a unique tone and explosive acceleration in topspin. Featuring IN-TENS sponge angled at 37.5° in combination with its higher friction elastic topsheet (GRIP EXTEND and PULSE technologies), Pilot Pulse is pumped full of energy with the perfect blend of speed, resonance and an ultra-precise feel in relation to the ball.

PILOT SOUND POWER

2,0/MAX - RED/BLACK

Pilot Sound Power is one of the most sonorous rubbers on the market. With its 35° IN-TENS² sponge associated with its grippiest and most optimised top-sheet (GRIP EXTEND and SOUND technologies), Pilot Sound Power is a genuine concentration of energy and sensation.

JULES
CAVAILLÉ

DRIVE INTENS

1,8/2,0 - RED/BLACK

Drive Speed is a traditional covering 'Made in Japan' for offensive play. Its qualities: clean and immediate transmission of energy, substantial and lasting grip, fairly firm 45° sponge for greater precision. A classic for your offensive game.

DRIVE SPEED

1,8/2,0 - RED/BLACK

Drive Spin is a traditional all-round covering 'Made in Japan'. Its qualities: very substantial, lasting grip, moderate transmission of energy for greater versatility, fairly soft 40° sponge for heightened sensation. A classic for your allround game.

DRIVE SPIN

1,8/2,0 - RED/BLACK

Drive Spin is a traditional all-round covering 'Made in Japan'. Its qualities: very substantial, lasting grip, moderate transmission of energy for greater versatility, fairly soft 40° sponge for heightened sensation. A classic for your allround game.

START UP' EVO

1,8 - RED/BLACK

Featuring an enhanced grip (more substantial and more durable) than the first version of the Start Up', Start Up' Evo is even more effective at adding spin to the ball, whilst remaining very tolerant during counter-initiatives and return of serve. Start Up' Evo is the perfect rubber for making your debut in competition.

BLADES

THE RIGHT BALANCE

The Hinotec blades are particularly appreciated by the players that make up Team Cornilleau.

Hinotec

NEW DESIGN

THE NOBLEST OF WOODS FOR EACH PLAYING STYLE !

Hinoki, which is present on the external ply and is combined with other carefully selected woods, offers a perfect balance between dynamism, ball handling and precision.

The Hinoki thus allows our Hinotec blade range to provide new sensations for each game style, and ensures a pleasurable game, as well as an extremely high quality finish.

Another notable aspect: unlike 100% Hinoki blades, which provide extremely high tones, the sound issued on each impact by Hinotec blades range will also delight you.

BRUNA
TAKAHASHI

HINOTEC OFF+ CARBON

Favoring top spin smashes, counter loops and active blocks, you seek the maximum power in each of your strokes. Very precise and perfectly controllable when taking the counter-initiative, Hinotec OFF+ Carbon blade is a redoubtable weapon at mid-distance, and its stroke will convince the most demanding player! The blade used by Can AKKUZU.

5 - Plywood 85 g

AFTER SALES SERVICE & SPARE PARTS

Our customers benefit from high quality products and an excellent after sales service. Spare parts can be ordered directly from www.cornilleau-services.com for tables manufactured within a minimum of the last 10 years. Cornilleau after sales service: located at our headquarters in Bonneuil-les-Eaux (France), this department comprises specialists who can answer your questions and offer advice via a simple phone call to:

+33 (0)3 44 80 22 22 from Monday to Friday from 08:00 am to 12:00 noon and 13:30 to 17:30 pm (French time).

SAFETY

All our tables comply with the European safety standards EN 14468. However, in order to ensure the utmost level of safety, Cornilleau has positioned its products well above this standard.

GUARANTEE

Cornilleau guarantees its tables against any manufacturing defect for a period of 3 years. This guarantee is extended to 10 years for outdoor tables. This 10-year warranty applies to all the various components, with the exception being the wear parts (wheels, net and net posts).

DIMENSIONS

Cardboard packaging: height 141cm, length 157cm, width 10 to 20cm.

Closed table: height 155cm, length 167cm (leisure and institutional range) and 183cm on all other models, width 75cm.

Playing dimensions: height 76cm, length 274cm, width 152.5cm.

PLAYING STRATEGIES

DEF

DEFINITION: «Traditional» defense, far from the table, generally involving chops (with both forehand and backhand).

MATERIAL: Very often a «long pimple-out» rubber (with or without sponge) on backhand, combined with an «inverted» rubber on forehand. The player can turn his bat.

ADVICES: ALL to OFF- «inverted» rubber, with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge (for «inverted» rubber): less than or equal to 1.8mm. DEF to ALL+ blade.

DEF+

DEFINITION: «Modern» defense, namely a DEF game with frequent counter-attacks generally incorporating smash or topspin shots.

MATERIAL: «long pimple-out» rubber (with sponge) on backhand, combined with an «inverted» rubber on forehand. The player often turns his bat.

ADVICES: ALL+ to OFF+ «inverted» rubber, with a sponge hardness $< \text{ or } = 42.5^\circ$. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm (or even 2.0mm, according to the level of the player). ALL to OFF- blade.

ALL-

DEFINITION:
A passive game based on small pushes and blocks alternating with mid-distance defensive shots. Offensive shots are pretty rare.

MATERIAL: «pimple-out» rubber (short, mid-long or long) or «antispin» on backhand, combined with an «inverted» rubber on forehand. The player barely turns his bat.

ADVICES: ALL to OFF «inverted» rubber, with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge (for «inverted» rubber): from 1.6 to 1.8mm. ALL to ALL+ blade.

ALL

DEFINITION: varied game, more geared around a mid-distance from the table and favoring ball control, placement and variations in spin. The aim is to cause your opponent to commit an error.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ to OFF rubber with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF- blade.

ALL+

DEFINITION: varied and precise game with blocks and counter-initiatives, closer to the table than the ALL- and ALL games. The placement, variations in spin and rhythm are used in order to secure easy-scoring balls.

MATERIAL: Two «inverted» rubbers.

ADVICES: ALL+ OFF covering rubbers (OFF+ drive according to level), with a sponge hardness $< \text{ or } = 40^\circ$. Thickness of the sponge from 1.8 to 2.0mm. ALL to OFF blade

OFF-

DEFINITION:
Offensive play with variations in rhythm and spin, most often slightly mid-distance from the table. Basically topspin is widely used here, principally with late contact on the ball and some fairly high, curved trajectories.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF/OFF+ rubbers, with a sponge hardness $< \text{ or } = 42.5^\circ$ on both sides. Thickness of the sponge from 1.8 to 2.0mm. ALL+ to OFF+ blade.

OFF

DEFINITION: Complete offensive play, combining fast strokes close to the table and variations in rotation at mid-distance from the table. The topspins are varied and often powerful, accentuated blocks and the player especially mobile.

MATERIAL: Two «inverted» rubbers.

ADVICES: OFF+ rubber with a sponge hardness $> 40^\circ$ on forehand and $< \text{ or } = 42.5^\circ$ on backhand. Thickness of the sponge from 2.0mm to max. OFF- to OFF+ blade.

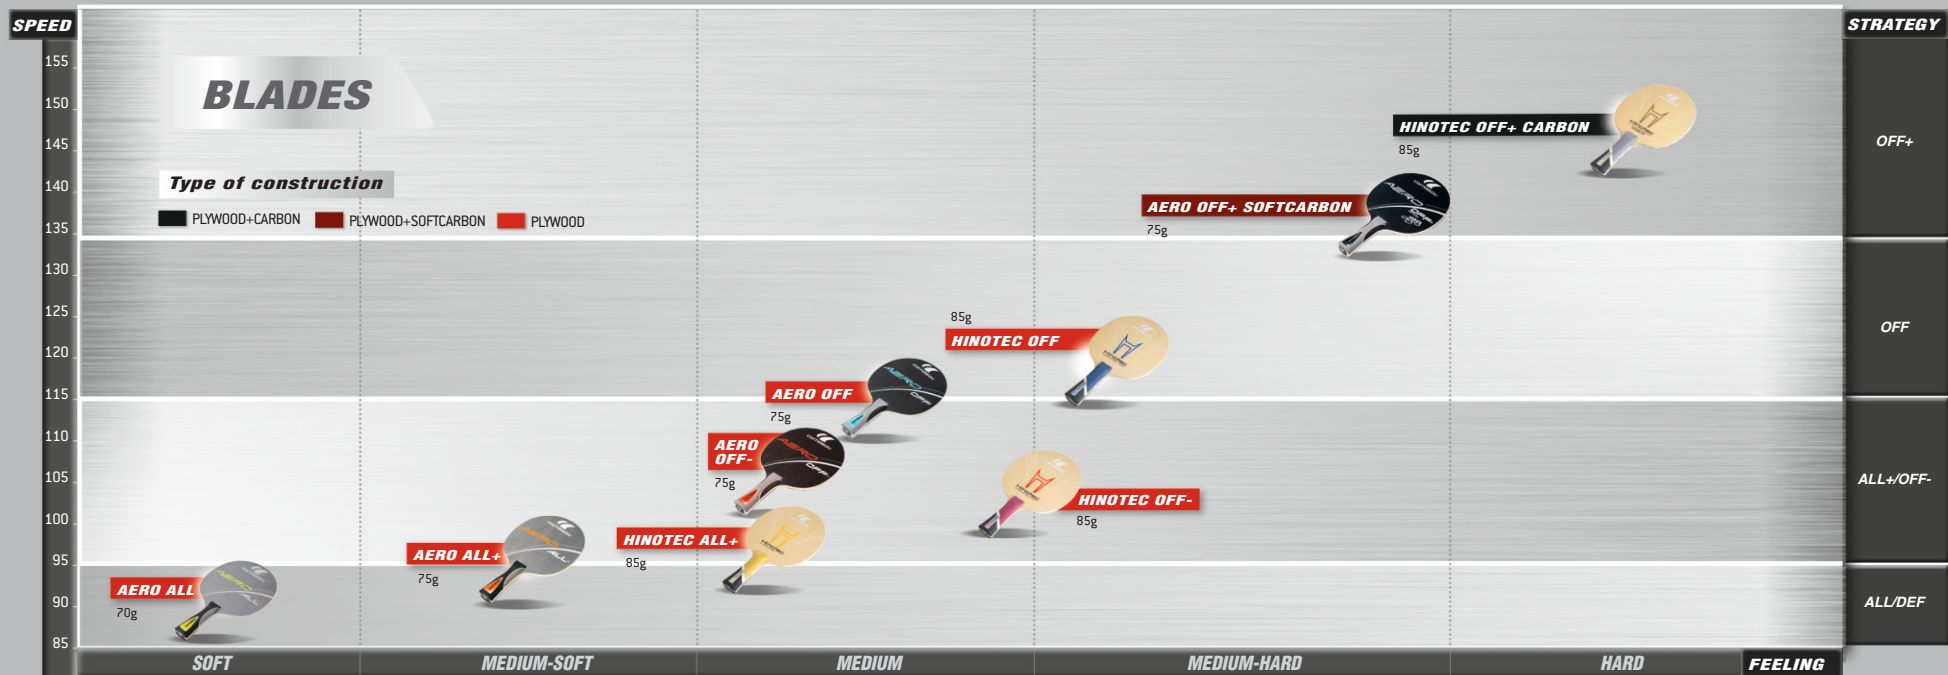

OFF+

DEFINITION: Very offensive style where taking the initiative is the absolute priority. The player moves about close to the table, returning the ball very early using topspin smashes, loops or active blocks. The player may also move away to a mid-distance from the table with wide-ranging and powerful topspins.

MATERIAL: Two «inverted» rubbers. Possible use of short «pimple-out» rubber on one of the two sides (common in Asia). The ball is then «punched» back on the bounce!

ADVICES: OFF+ rubbers with a sponge hardness $> 40^\circ$ on both sides. Thickness of the sponge from 2.0mm to max. OFF to OFF+ blade.
