Hitches & Towing - Integrated Trailer Brake Module

Integrated Trailer Brake Control Module allows driver to automatically or manually activate the electronic brakes on properly equipped trailers for greater stopping power on downhill grades. The controller and status display are mounted in the dashboard to the left of the steering wheel, and the included control lever can activate the trailer brakes independent of the truck's brakes. Drivers can customize the amount of brake force the trailer uses, depending on load requirements.

Before ordering the Mopar Integrated Trailer Brake Module (ITBM) kit, it is necessary to check if the vehicle has both trailer brake module connectors. These connectors are located under left side of the steering column. Both connectors are 4 pin connectors. If both connectors are not present the ITBM kit cannot be added to the vehicle.

Racks & Carriers - Bicycle Carrier, Hitch-Mount - Thule

In partnership with Mopar, Thule, the leading US manufacturer of car rack systems, offers hitch-mount bike carriers. This hitch mount carrier sets the standard for performance and ease of use. The improved swingaway design allows for rapid rear vehicle access. The Stinger-Swinger hitch converts quickly from 2" to 1-1/4" out of the box and the Hitch-Switch quick release lever allows for fast storage of bike carrier arms. The T3 cradles lock down bikes and cradles while still allowing complete adjustment along bike arm and the No Sway Cage prevents bike-to-bike contact.

Bumpers - Off-Road Bumper

Steel high clearance bumpers are tough and heavily gusseted for strength and tough looks. The front bumper is designed to meet all FCA US occupant protection requirements and is compatible with your vehicle's airbag system. The front bumper features a tubular grille guard, "Jeep" badge, and is also available with integrated Winch mount and production Fog Lamp mounting provisions. It is wide enough to provide fender protection but is narrower than the stock bumper. Uses the production tow hooks. The Winch is mounted low for protection, and does not restrict engine cooling. The rear bumper is styled to match the front, features tow eyes, and works with the production hitch receiver. The textured Black finish is E-coated and powder coated to meet the industry's toughest corrosion requirements. Functional and Strong, these bumpers are just the ticket for your off road customers!

These products are designed to enhance the appearance of the vehicle; they are not intended to prevent injury or damage in the event of an accident and are not intended to be used as a tie-down device.

Covers - Vehicle Cover, Cab

Weather-resistant high quality nylon cap in Black or Silver fits snugly over your Wrangler's hard or soft top. Silver color is a sun reflective material that reduces interior temperatures and sun fading. Great for sunny climates. Also will fit with top off to help keep interior clean and dry. Elastic loops attach around taillights and mirrors, and includes two integrated cords that attach to the Jeep to secure the cover under the door area. Folds into a small snap closure storage bag that is included.

Tops - Hard Top, Headliners

By adding a thick insulating layer to the inside of your hardtop, you can keep interior temperatures down in the summer and up in the winter. Vehicle testing proved it helps improve both cool down and warm up time. This headliner helps to deaden noise and gives a clean, finished look. Vehicle testing proved a 10% improvement in noise absorption due to rain, road, wind and powertrain sources. Features bound and finished edges. Easy to install and made from our very durable material. Will not mold, mildew or rot.

Suspension - Lift Kits - JK (4WD)

Short Arm Lift Kits: 2" and 4" These Mopar lifts offer exceptional ride comfort and control, on-road or off. Both lift heights use the same basic components, except for coil springs, and yield all the suspension travel the factory JK driveline offers. Coil spring rate is wheelbase-specific (2 or 4-door), plus two Mopar shock absorber options allow you to tailor the kit to your performance aspirations. Both kits also include a replacement high-clearance, high capacity hydraulic steering stabilizer kit (white color). The 2" lift is ideal for 33" to 35" diameter tires; the 4" is best suited for 35" to 37" tires. Note that Rubicons (with 2" or 4" Lifts) require the Front Stabilizer Bar Link Kit (P5155512). **Long Arm Lift Kits: 4.5"** The ultimate off-road performer. Mopar's Long Arm kit provides optimal suspension travel by using longer, high-articulation axle-to-frame link arms. Dampening is handled by Bilstein high-pressure monotube gas shocks. This kit contains a vast array of components, including replacement front / rear driveshafts. Best suited for 37" diameter tires. **Shock Options:** Performance shock is a twin-tube, high capacity hydraulic shock that features tenstage velocity sensitive valving. White enamel finish; includes black boot. Mopar's premium shock, jointly tuned with Bilstein, allows you to realize the most performance gain. The seamless monotube body contains a patented piston design and a high-pressure gas charge to quickly dissipate heat and minimize shock fade. Silver Zinc plated finish; includes black boot. **WARNING:** Lift Kits alter vehicle properties and affect handling. Lift kits are intended to be used for off-road driving only. Your kit will come with more detailed instructions and warnings. Contact the Mopar Direct Connection Tech Line (888-528-4364) to obtain a copy. **NOTE:** Vehicle RPM and speedometer readings are based on the stock vehicle's tire and wheel combinations. Installing larger wheels and tires with your Mopar Performance lift kit could result in incorrect RPM, speedometer and odometer readings. **WARRANTY:** Lift Kits work with all vehicle systems including the Electronic Stability Program, and are covered (except P5155075) by a Limited Lifetime Warranty. The warrantor is the Lift Kit manufacturer, not Mopar, Fiat FCA US Automobiles, or the dealership selling the product. Contact the Mopar Direct Connection Tech Line (888-528-4364) for warranty details and installation instructions.
