Moments of
wonder take
the most
personal
form.

“Glass is magical; at the beginning,
it’s a hot, liquid substance, and in the end,
a piece of transparent solid material.
It is a transparent fossil of our efforts
to tame it.”

Maxim Velčovský, Lasvit Art Director

The Essence of Lasvit

This catalogue serves as a guide to our lighting collections, showcasing designs that balance craftsmanship, material innovation, and contemporary vision.

“Handmade objects bear the imprint of their makers’ love, giving them a unique look and, more importantly, a distinct feel. They radiate creative and humanistic energy that can be felt even in complete darkness.”

Leon Jakimič, founder of Lasvit

DAY & NIGHT

By day, Miles stands introverted, its precious metal coating reflecting its surroundings and hiding what's inside. By night, its true character shines through, as warm light transforms it into a source of pulsing brilliance.

THE PLAYERS' INSPIRATION

Created by New York-based studio Yabu Pushelberg, Miles draws inspiration from the parallel between playing brass musical instruments and glassblowing. Both require immense concentration and passion.

JAZZ IN GLASS

Metal-coated glass gives Miles a reflective, darker tone, making it striking even when unlit. The collection includes pendants, floor lamps, and table lamps, offering versatility across diverse spaces. Whether displayed individually or as part of a group, the whole band adds a unique vibe to any interior.

WEAVING LIGHT INTO GLASS

Loomo

Light skims its surface, catching on patterns that shift like a woven thread, an illusion of texture captured in glass.

THREADS OF LIGHT

Loomo reinterprets textile craftsmanship through lighting, evoking the texture of woven fabric. Though smooth, its surface suggests a structured, woven impression—capturing the interplay of texture and light in a contemporary design object with an ambient glow.

MASTER OF INTERLACING HISTORIES

Designed by Lasvit's Art Director Maxim Velčovský, Loomo transforms fabric's immaterial qualities into sculptural light. Known for reimagining everyday objects with irony and history, Velčovský creates a dialogue between old and new.

A GLOW WOVEN IN GOLD

Available in two wall sconce sizes, Loomo's golden hue enhances its circular form. The soft glow highlights its intricate detailing, blending function with artistry. Whether in an intimate setting or eclectic interior, Loomo elegantly drapes light like woven threads.
